

Student Registration and Admission Management

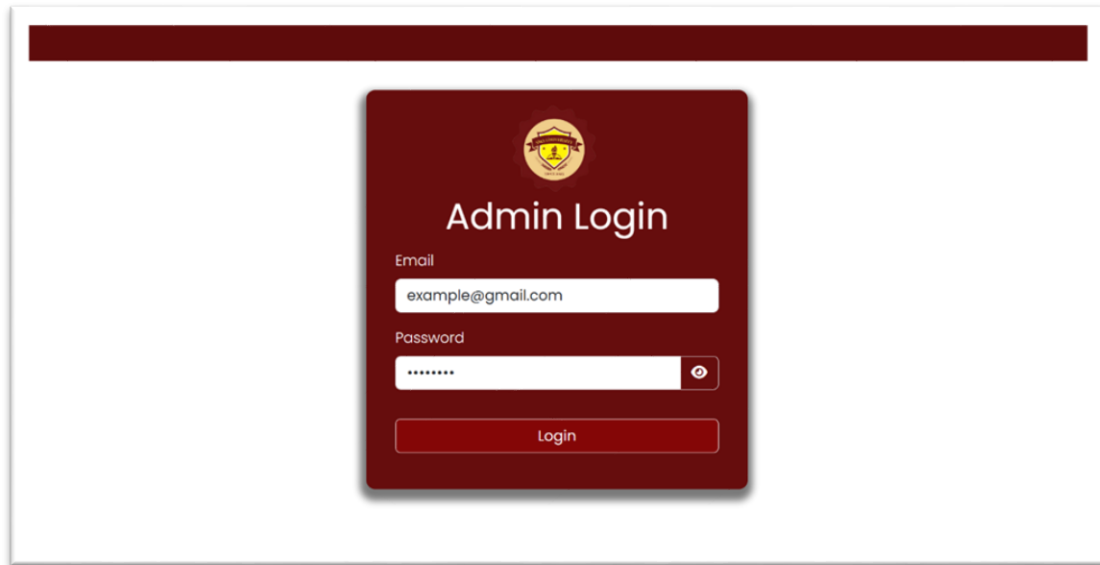

Figure 1. Admin Login Screen

The admin login screen allows administrative staff to enter their credentials using two fields: one for the email and another for the password, with an eye icon to reveal the password for accuracy checks. Users click the 'Login' button to proceed after entering their details.

If the email or password entered is wrong, an error message "Something went wrong. Check email or password" will show up, telling the user to recheck their entries. If a student tries to log in here, a message "Unauthorized Access!" will pop up, signaling that the login attempt is not allowed for their user level.

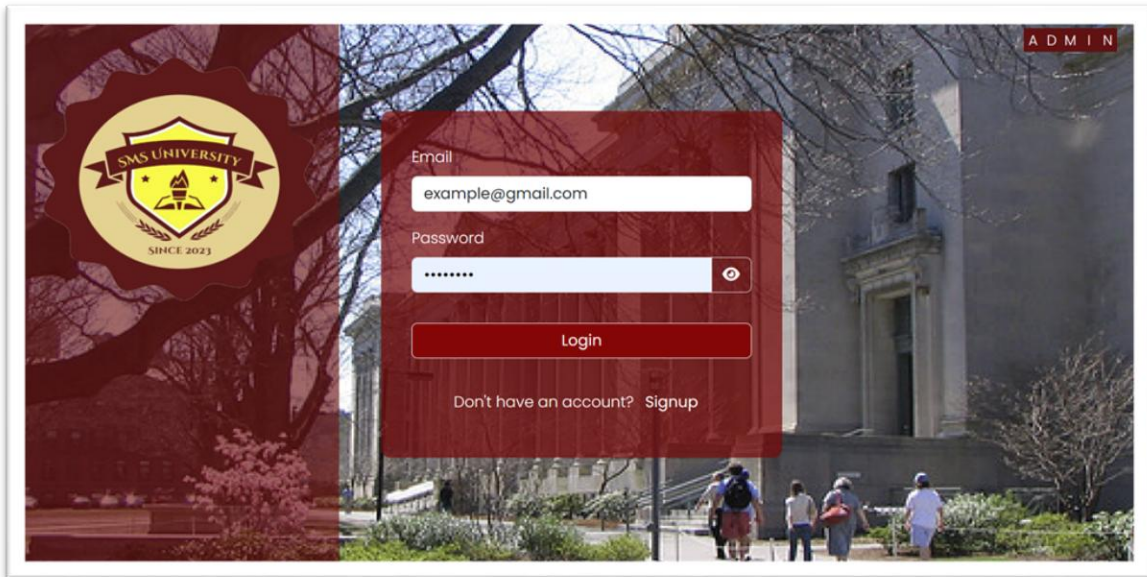

Figure 2. Student Login Screen

The student login screen has a login panel with two fields: one for the user's email and another for the password. Next to the password field, there's an eye icon that users can click to reveal the password they've entered to ensure it is correct. An 'ADMIN' button is in the top-right corner, which when clicked, takes the user to the admin login screen.

Below the login credentials fields, there's a 'Signup' link for new users to create an account. If the entered email or password is incorrect, a message pops up saying "Something went wrong. Check email or password." If an admin account tries to access through the student login, a warning appears: "Unauthorized Access!" indicating that the login attempt is not permitted.

Users Manual

Admin Pages:

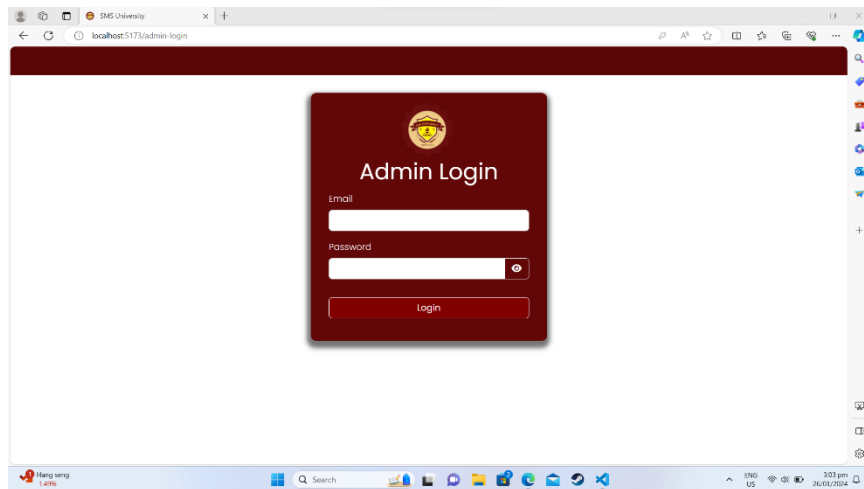

Figure 1. Admin Login Screen

This page is an administrative login interface for a web application, allowing administrators to access their accounts by entering their email and password.

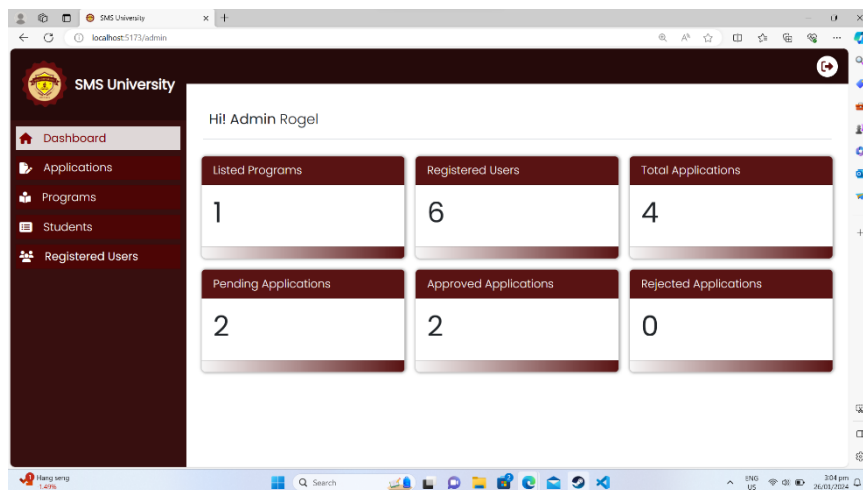

Figure 2. Admin Dashboard

This page displays a summary of activities within a university's administrative system, including the count of programs offered, the number of users registered, and the status of student applications, categorizing them into pending, approved, and rejected.

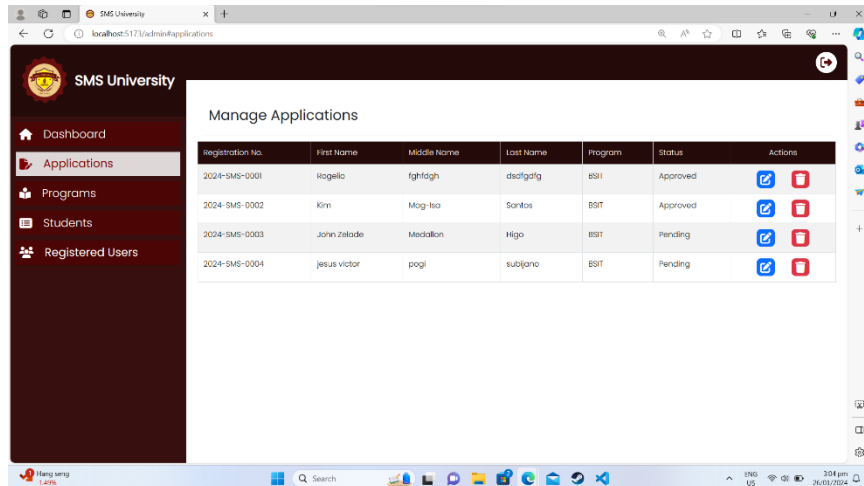

Figure 3. Applications

This page is for managing student applications to a university, where an administrator can view each application's registration number, name, program applied for, current status, and perform actions such as editing, approving, or rejecting applications.

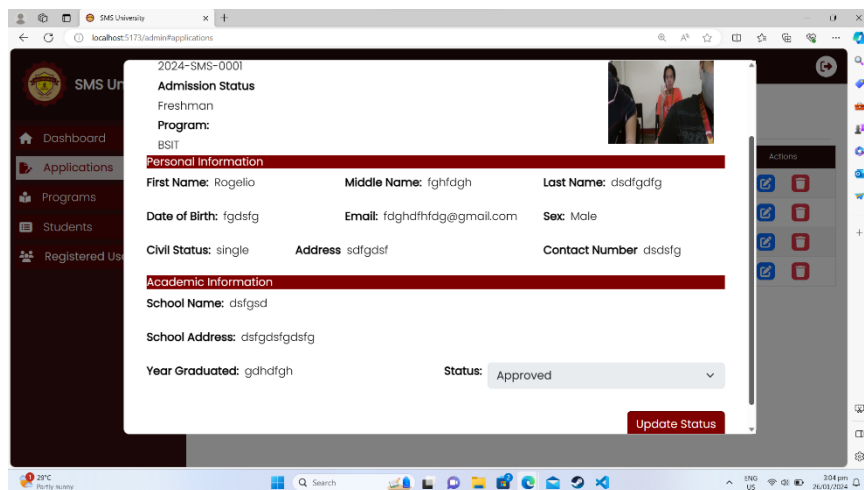

Figure 3.1. Application Details

This page allows an administrator to view and update the detailed personal and academic information of a student's application to a university program, including their admission status and the ability to change the application's approval status.

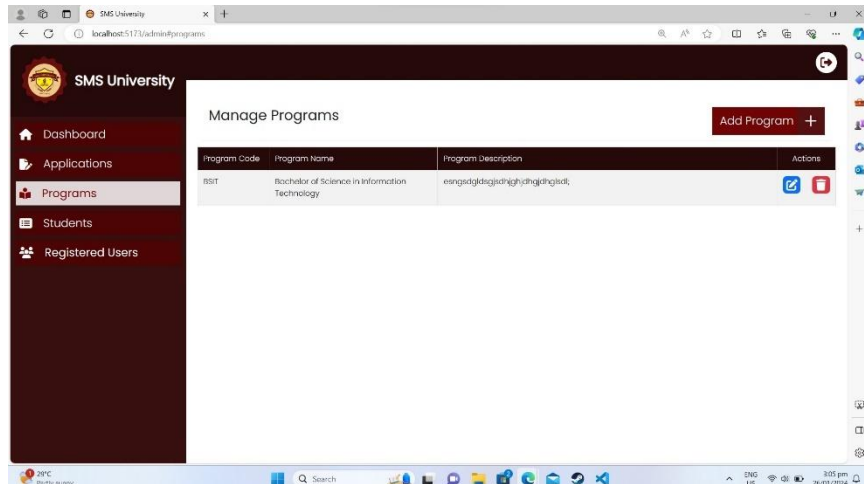

Figure 4. Programs

This page allows the administrator to manage academic programs, including creating new programs, as well as editing or deleting existing ones, alongside viewing their details such as program code, name, and description.

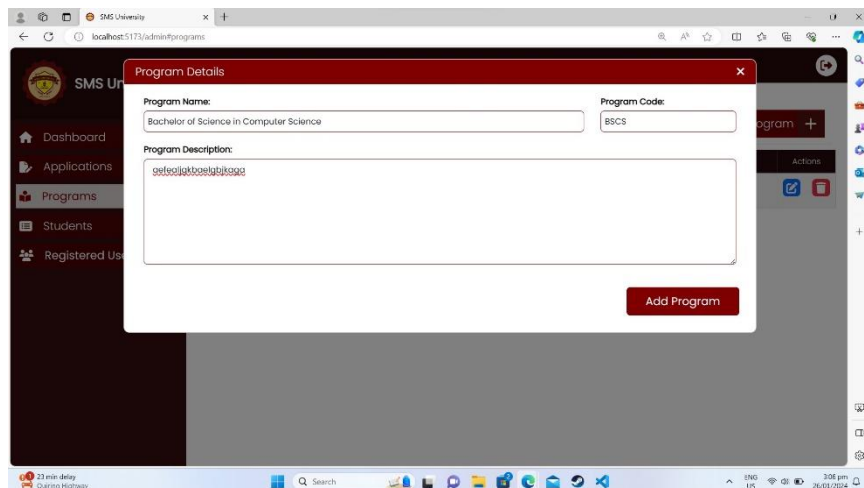

Figure 4.1. Program Details

This page is used for adding a new academic program to the university's offerings, requiring the input of the program's name, description, and a unique program code before submission.

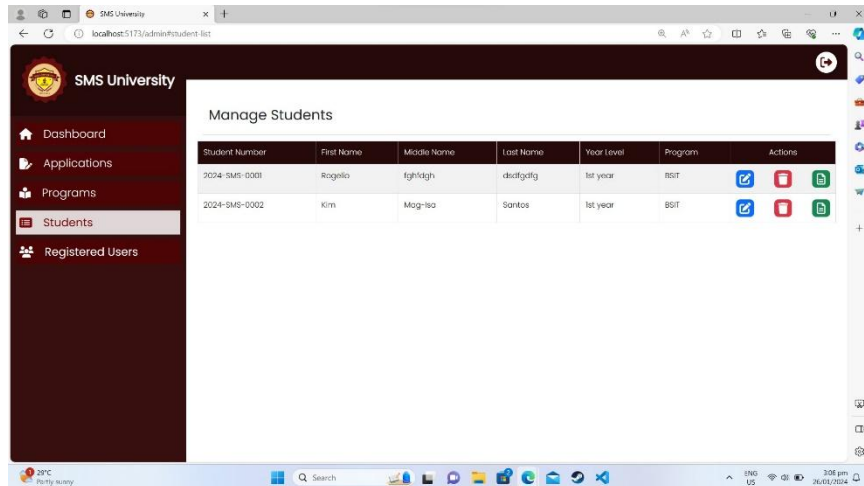

Figure 5. Students

This page is designed to manage student records within the university's system, enabling the administrator to view and edit student details, monitor their year level and enrolled program, and take various actions such as updating or deleting student information.

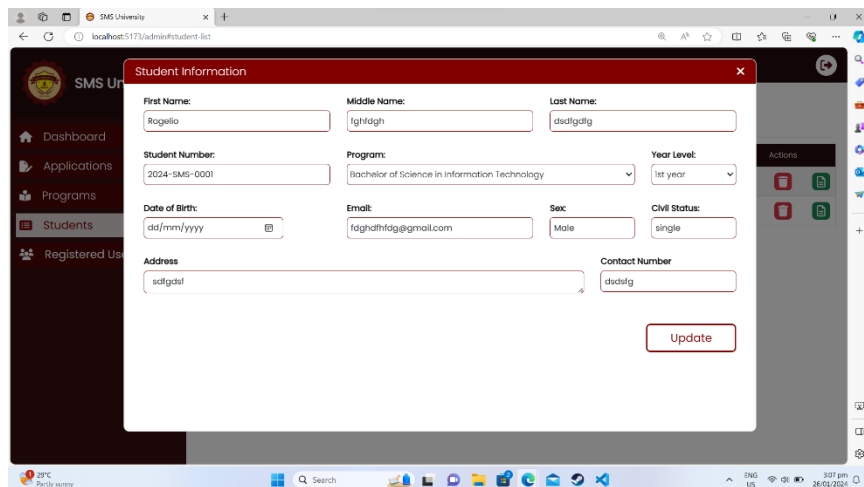

Figure 5.1. Student Information Update

This page is utilized for updating or editing the detailed personal and academic information of a student enrolled in the university, such as their name, student number, program, year level, and contact details.

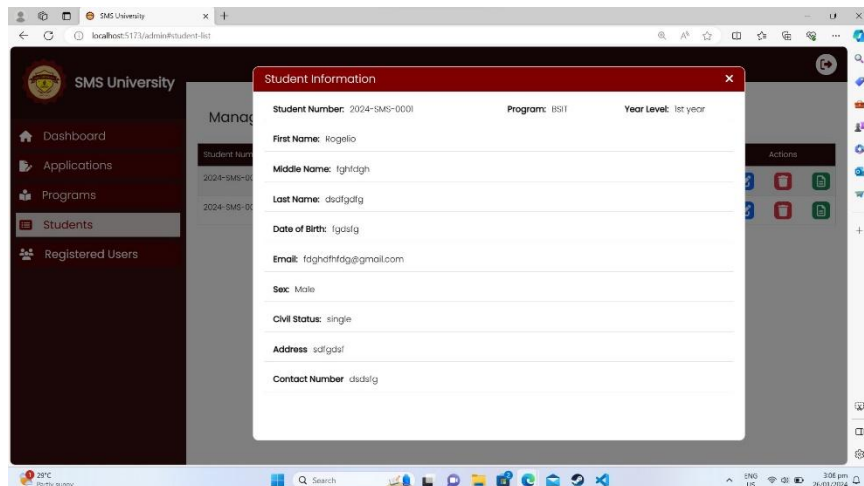

Figure 5.2. Student Information

This page displays a student's information within the university's administrative system, where an administrator can view and possibly edit details such as the student's name, number, program, year level, and contact information.

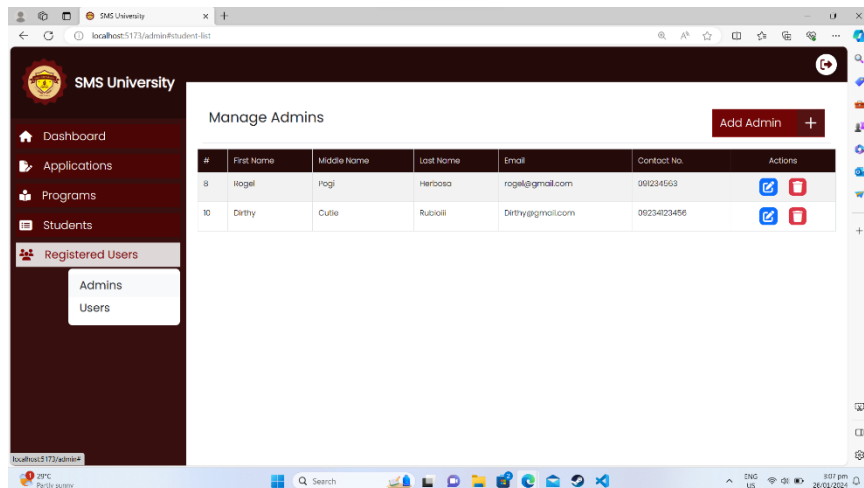

Figure 6. Registered Users (Admins)

This page is where an administrator can manage the accounts of other admins within the system, including adding new admins, and viewing or editing their personal details like name, email, and contact number.

The screenshot shows a web browser window with the URL 'localhost:5173/admin/student-list'. A modal form titled 'User Information' is open, allowing an administrator to update a user's details. The form includes fields for First name, Middle name, Last name, Email, Password, Address, Date of Birth, and Contact No. The 'Update' button is at the bottom right.

Field	Value
First name	Rogel
Middle name	Pogi
Last name	Herbosa
Email	rogel@gmail.com
Password	*****
Address	Cute
Date of Birth	24/01/2000
Contact No.	091234563

Figure 6.1. Registered User Information (Admins)

This page is a detailed view for updating an admin's individual information, including their name, email, password, address, date of birth, and contact number.

The screenshot shows the 'Manage Users' page in the SMS University system. It displays a table with columns for #, First Name, Middle Name, Last Name, Email, Contact No., and Actions. The table lists four users, each with edit and delete icons in the Actions column.

#	First Name	Middle Name	Last Name	Email	Contact No.	Actions
7	kimpay	pogi	santos	kimpay@gmail.com	7978737689	[Edit] [Delete]
9	Kim	Mag-isa	santos	kinsantouse@gmail.com	09123456678	[Edit] [Delete]
11	John Zealade	Medalion	Hipa	john@gmail.com	09123456785	[Edit] [Delete]
12	Jesus Victor	Pogi	Subjano	jjeuiv@gmail.com	0934567223	[Edit] [Delete]

Figure 7. Registered Users (Users)

This page is for the administrative management of user accounts within the university system, where an administrator can add, view, and edit the personal details of users, such as their name, email, and contact number.

Figure 7.1. Registered User Information (Users)

This page is a detailed form for updating a specific user's information, including their first name, email, address, password, date of birth, and contact number.

Student Pages:

Figure 1. Student Login Screen

This page serves as a login portal for users, allowing them to access their accounts by entering their email and password, and includes an option to sign up for a new account.

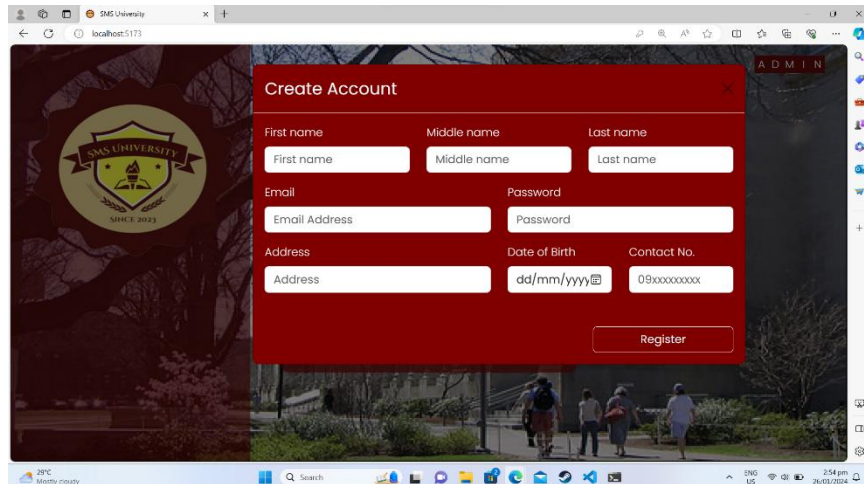

A screenshot of a web browser displaying the registration page for SMS University. The page features a dark red background with a large, semi-transparent image of a university building. On the left, there is a circular logo with the text 'SMS UNIVERSITY' and 'SINCE 2021'. The main content is a white 'Create Account' form with the following fields: 'First name', 'Middle name', 'Last name', 'Email Address', 'Password', 'Address', 'Date of Birth' (with a date picker icon), and 'Contact No.' (with a phone icon). A 'Register' button is located at the bottom right of the form. The browser's address bar shows 'localhost:5173'.

Figure 2. Registration

This page is designed for new users to create an account, requiring them to input personal details such as first, middle, and last name, email, password, address, date of birth, and contact number before registering.

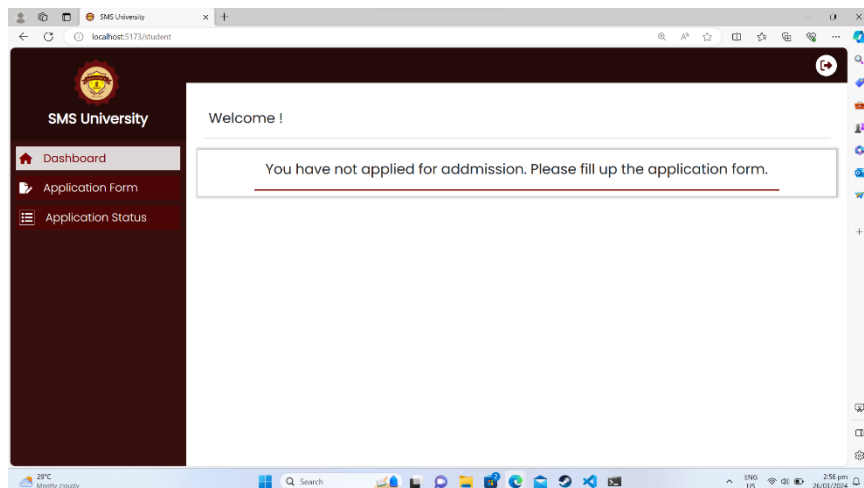

A screenshot of a web browser displaying the student dashboard for SMS University. The page has a dark red header and sidebar. The sidebar contains the university logo and three menu items: 'Dashboard', 'Application Form', and 'Application Status'. The main content area is white and displays a 'Welcome !' message followed by a red-bordered box containing the text: 'You have not applied for admission. Please fill up the application form.' The browser's address bar shows 'localhost:5173/student'.

Figure 3. Student Dashboard

This page informs the user that they have not yet applied for admission and provides a prompt to fill out the necessary application form.
